• 091998 - 072004	Chengnan Primary School (PRC)	Full-time	Primary Education

## Skill vs Lack

- Javascript, HTML, CSS → Not a professional. Use it only to improve work and daily life efficiency, built my weight tracker, worksheet generator, studying progress tracker.
- Final Cut Pro → Not a professional. Prefer take a good pictures and good videos rather than relying on editing.
- Teaching → Definitely extraordinarily professional at elementary education. Respect the children like how we wanted to be respected when we were little.
- Office software → Not a professional.
- Art → Horrible. Zero creativity.

## Hobby

- Sports → Running, pilates, tennis, squash, sports in general. Quite good as a non-amateur.
- Music → Piano, drum sets, singing, music in general.
- Language → Chinese and Germanic languages.
- STEM → Most STEM areas except biology related ones.
